

Queenslake provides a beautiful and thoughtfully maintained setting for the Mogadishu Mile. The 140-acre property, permanent memorial trail, and markers honoring the 19 fallen servicemembers of Task Force Ranger create a meaningful place to gather, remember, and honor their sacrifice.

The care put into the grounds and the event itself reflects a genuine commitment to preserving the legacy of Task Force Ranger. We appreciate John and his team, along with the volunteers and crew, who work to make this tribute possible each year.

Through the Mogadishu Mile and its efforts to bring together veteran-focused organizations, musicians, and the broader community, Queenslake provides an opportunity for veterans and families to connect while honoring those who came before them.

The Three Rangers Foundation is grateful for Queenslake's continued support of our mission and its partnership in keeping the memory of Task Force Ranger alive.

Respectfully,

Michael T. Hall

CSM, Retired
